OHIO MARRIAGES

RECORDED IN COUNTY COURTS

THROUGH 1820:

AN INDEX

Jean Nathan, Chairman

Compiled and published by

The Ohio Genealogical Society

1996

PREFACE

It is with great pleasure that I recognize the efforts of Jean Nathan and her committee to see this worthwhile project to completion. This statewide index for early Ohio marriages will be a major research tool in our state. It is the first in an ongoing series of volumes to cover the marriages of Ohio. The Ohio Genealogical Society realizes the value of statewide indexes for family history research. We also hope this index will help members find the records of their early ancestors that can make them eligible for First Families of Ohio.

This project was started under the Presidency of Jeanne Pramaggiore, and Jean Nathan has brought it to successful completion in 1996. My sincere appreciation for this dedicated service to OGS.

Phyllis Brown Miller Delaney, C.A.L.S.,
President
The Ohio Genealogical Society
August, 1996

INTRODUCTION

by Jean Nathan

Purpose

The purpose of this project is to collect and publish all court recorded marriages performed within the State of Ohio through the year 1820. The aim is to provide a quality statewide research tool for all researchers. The dates were chosen to limit the project's scope to manageable proportions and to provide assistance for applicants to First Families of Ohio. The decision was made not to include newspaper accounts and other non-court records. Only orignal records, or microfilmed copies of originals were used.

Background

The idea to index Ohio court recorded marriages is credited to Jeanne Pramaggiore, Past President and Past Chairman of the Board of The Ohio Genealogical Society. The project began under her Presidency, and originated under the capable direction of Beverly Schumacher.

Prior to 1821, 59 counties had been organized in Ohio. Of these, 56 are included in this index. Delaware and Monroe Counties had courthouse fires which destroyed their early records. Although Shelby County was organized in 1819, their records do not begin until 1825.

The information in this index was copied from county court records, entered into a database, proofread, corrected and proofread again. A chart listing what records were used to compile this index begins on page ix. The year given under the county name is the year the county was organized and began to function as a county. Most, if not all, of these records are available on film through your LDS Family History Center. In some cases, the films are available at the OGS Library in Mansfield, Ohio. These films are indicated on the chart.

Use of this Index

This book is intended to be used only as an index; a tool for doing research. It is not a primary source of evidence. If you find a name or names that interest you, go back to the original record, which is the primary source. The original records can be found either at that county's courthouse, or on film at a Family History Center. Be sure to make a copy. In some cases, additional information, such as age or residence, may be found. In most cases, the name of the person who performed the marriage, is given. If the marriage was performed by a religious official, determine the religious official's church through the use of city directories and county histories. Once the name of the church has been determined, efforts should be made to locate the church records. If the

family remained in the area, many other family records may be found at the same church.

Format

All data was copied exactly as it is listed in the record, including obvious errors (Feb 30, 1819). No judgments were made as to what the record should be. When a record was not clearly legible, and there were two or more possible interpretations, a separate entry was made for each possibility. Particular attention was given when the first letter of a surname was in question. An example follows:

Sick, John	Doe, Mary	Sep 27, 1813	Rich	001	001
Lick, John	Doe, Mary	Sep 27, 1813	Rich	001	001

A question mark (?) immediately following a name (Smith, John?) indicates there was a question about the spelling of the given name. A name followed by a space and a question mark indicates there was a question about the spelling of the surname (Smith, John ?). Dashes (----) indicate missing or unreadable information.

The index consists of 6 fields of information:

Field 1 is an alphabetical list of brides and grooms.
Field 2 is the name of the spouse of the person in Field 1.
Field 3 is the date of marriage, if it was indicated. An "L" after the date indicates date of license. An "R" indicates date recorded. The date recorded is not necessarily the date of the event.
Field 4 is the first four letters of the county name.
Field 5 is the book or volume number.
Field 6 is the page number.

A Word of Caution

Many times, ministers, Justices of the Peace, and others who were permitted to perform marriages never made it back to the courthouse to record all the marriages they performed. If a marriage for which you are looking does not appear in this index, do not immediately assume that the persons were not married in Ohio. Check additional sources such as church records, newspapers and family Bibles.

On the other hand, a marriage appearing in this index may never have actually taken place. Sometimes a couple applied for a marriage license, but, for various reasons, they never married.

THE FIRST MARRIAGE LAW IN OHIO

by Mary L. Bowman

The first marriage law passed by the Ohio General Assembly, on 4 April 1803, entitled "An Act Regulating Marriages" stated in part:

"... Male persons of the age of eighteen years, female persons of the age of fourteen years, and not nearer of kin than first cousins, may be joined in marriage: Provided always, That male persons under the age of twenty-one years, and female persons under the age of eighteen years, shall first obtain the consent of their fathers respectively, or (in case of the death or incapacity of their fathers) of their mothers or guardians."

"... It shall be lawful for any justice of the peace in their respective counties, to solemnize marriages, and ordained minister of any religious society or congregation (such minister first producing to the court of common pleas for the county in which he resides, credentials of his being a regular minister of such society) whereupon the court is hereby required to grant such minister a license, whereby he shall be authorized to solemnize marriage, so long as he shall continue a regular minister in such society or congregation, between any persons legally applying to him within this state; and the societies of people called Quakers and Mennonists, in their public meetings, or agreeable to the rules and regulations of their church, to join together as husband and wife, all persons not prohibited by this law, who may apply to them in manner hereinafter provided."

"... Previous to persons being joined in marriage, notice thereof shall be given, either in writing affixed at some public place within the township where the parties reside, fifteen days before the day of marriage, under the hand and seal of a justice as aforesaid, or publicly declared on two different days of public worship; the first publication to be at least ten days previous to such marriage, within the county where the female resides, or license obtained for that purpose from the court of common pleas for the county where such marriage is solemnized." [See pages 31-34 of Acts of the State of Ohio, First Session of the General Assembly, held under the Constitution of the State, A. D. One Thousand Eight Hundred and Three... Chillicothe: N. Willis, Printer, 1803. See also the act of 16 February 1810, pp. 119-122 of Acts passed at the First Session of the Eighth General Assembly of the State of Ohio: Begun and Held in the Town of Chillicothe, December 4th, 1809... Chillicothe: J. C. Collins & Co., Printer: 1810.]

VOLUNTEERS

Numerous hours were contributed by our many volunteers. We recognize the sacrifices these people made, and thank them for their dedication to the project. Their names are listed below. Please look over this list, and express your appreciation to those you know.

Names of volunteers were requested as each county was completed. However, any time a list of names is given, it is inevitable that someone is missed. For this, we apologize and express our sincere appreciation to those volunteers, also.

I would like to extend special gratitude to Sunda Peters and Ron Stroup for helping combine all the pieces into one workable index. I would also like to thank MAGIC (Mohican Area Genealogists Interested in Computers) for their extra efforts filling in the blank spots.
